

Enrollment for summer and fall is in full swing.

Advisors have been busy the last few weeks reaching out to students who need advising to set up plans for summer and fall. Outreach is sent to students through email a new scheduling system, called Navigate. An example of the message a student receives is below.

Once a student clicks on the blue link, they will see the options below from which to choose a day and a time to schedule an advising appointment.

For more information about advising (locations, contact information, etc.), visit www.wichita.edu/advising
