

WICHITA STATE
UNIVERSITY

COLLEGE OF **ENGINEERING**

FEBRUARY 22, 2024

WELCOME

The College of Engineering at Wichita State University welcomes you to the second annual Introduce a Girl to Engineering Day (IGED) event!

In the year 2020, the United States Census reported that, depending on the specialty, women only represented nine to 32% of all professional engineers. Although these numbers are growing, they are a reflection of the gap in passion for engineering between men and women. While engineering is considered a male-dominated profession, it is important for the health and safety of everyone that engineers are representative of the population.
