

RESEARCH IN BIOCHEMISTRY CHEM 69
Department of Chemistry

This form must be submitted to and approved by the instructor and departmental chairperson prior to enrolling in CHEM 69

Last Name First Name M.I. myWSU I.D.

Phone: _____

BIOL 420 Grade _____
CHEM 662 or 663 _____
CHEM 664 _____

CRN _____ (it is student responsibility to fill this in. Look for course, instructor, and cr hrs in online schedule)

CHEMISTRY 669

Expectations of an undergraduate student applying to enroll in 2 cr hr of CHEM 669 research with a chemistry professor.

I will work a minimum of approximately 8 hours per week per 2 cr hr enrollment and 12 hours per week per 3 cr hr enrollment, beginning week 1 of the semester and extending throughout the semester.

Initials_____

The majority of my time in the laboratory will occur during the work week. Mon-Fri, 8am-5pm

Initials_____

I will not work in the laboratory unless my faculty advisor, a graduate student, or a postdoc is present.

Initials_____

I understand that my performance in the course will be evaluated according to the research goals set by my faculty advisor.

Initials_____

I will attend group meetings.

Initials_____

I will undertake to inform my supervisor of progress as it occurs.

Initials_____

I understand that a few weeks of hard work at the end of the semester after underperforming through the bulk of the semester will not earn a good grade.

Initials_____

I will be graded according to the accepted university practice

S = Satisfactory

U = Unsatisfactory (Failing work)

I = Reporting and paperwork incomplete, experiments still to be performed, etc.

Initials_____

Student name (print)_____

Student signature_____

Date_____ Semester _____

Supervisor name_____

Please complete and return to the Chemistry Dept. office prior to the end of the first week of the semester.
