2012@013ProgramReview ExecutiveSummary

Overview

Wichita State University revised its program review procedures during the 2010 2011 academic year. This report reflects the secondyear of the revised procedure. WSU program review is organized around a year long preparation and review of a self study that is intended to create a thoughtful assessment of the quality of academic programs and to establish goals for improvements. The process of reviewing these studies (which includes faculty, the deans, the University Program Review committee, and the Provost) is expected to strengthen the academic programs, identify program needs and campus priorities, and identify areas for reorganization.

On a 3 year cycleeach academicunit prepares a self study using a standard reporting template. These year reports then feed into the required 8 year report to the Kansa Soard of Regents. Hence, there is a continuous review process of each academicunit.

Thetriennial reporting cycle, beginsone year in advance in

a workshopfor chairsandassessmentoord

st

when the studies are submitted to the Deans. Thereafter the studies are reviewed by the Deans, Graduate School (as appropriate) and the University Program Review committee (consisting of the Associate Provost for Quality Assurance and Accountability, Director of Institutional Research the President, President Elect, and Past President of the Faculty Senate, and a Dean). Each unit is provided with an opportunity to discuss and clarify those reviews. The University committee submits its final report to the Provost by November 1st.

IntensiveReviewof SelectedPrograms

Theprogramsundergoingintensivereviewthis yearwere in three different colleges (engineeringhealth professions and liberal arts and sciences) and ranged from bachelorlevel to doctoral level programs. While three colleges had programs scheduled for intensivereview, only programs in health professions (review starts on page 4) and liberal arts and sciences (review starts on page 6) were included for this report. Engineering programs were not due for KBOR eporting. Each college was notified of the programs undergoing intensivereview in November of 2011.

College of Health Professions: Programreview within this Collegewas part of a larger process of strategic planning. One graduate program was reviewed. Goals and objectives were developed by the department to integrate with the strategic directions of the college. In this college, a collegelevel review committee also assessed he program in the process before the self study was forwarded to the Graduate Council and University for review.

Fairmount College of Liberal Arts and Sciences: Four undergraduate and two masterlevel programs were reviewed in this college. Self Studies were developed by the department chair. The reports were sent to the Graduate Council (graduate programs only) and College Deanfor review prior to them being submitted to the University Review

Comparedo last year's report, 7 programareas have been removed from our triggered list: Aging studies; arts/studio arts; nursing practice; health science parth, environmental, and physical sciences mathematics and Spanish.

PotentialCostsof Recommendations

None of the recommendation smade will require any additional cost to the University.

Collegeof HealthProfessions

<u>Department/Program(s)</u>: PhysicalTherapy

Degree(s)Offered Doctorof PhysicalTherapy(DPT)

Triggers:T/TTfaculty

Brief Description of Each Degree:

The DPT degree is a 124 credit hour program which provides the graduate student with the requisite knowledge and skills to be eligible for licensure as a physical therapist upon graduation and success fulp as sing of the National Physical Therapy Examination (NPTE). Scores on the national licensure examination for WSU first time takers show an average of 91% pass rate (first time and repeat takers show a 99% overall passing ate). Traditional students, those who enter the program immediately after acquiring a Bachelor' Degree, have a broad variety of majors depending on each student's area of interest, e.g., Biology, Math, Psychology, Exercis & Cience and Athletic Training. The first two years of the program combined idactic and clinical practice. The third and final year of the program has the students practicing under the supervision of license ophysical therapists in three full time clinical internships. The program accepts 40 students, out of around 200 applicants, each year.

The Commission on Accreditation in Physical herapy Education (CAPTE) ranted the program ten years accreditation (through 2021) in 2011. WSU's PT program has maintained full accreditation status since its establishment.

The program has averaged 4.8 tenured/tenure track faculty and 2.7 other instructional FTE over the last 5 years.

Recommendations:

Prior to the next review in 2014:

Reportnew data on learning outcomes and document how the outcomes were used for program improvement.

Datashouldbe collectedand evaluated in terms of student perceptions about the program. The University implemented an electronic under graduate and graduate student exit survey in 2011 (by program) for this purpose.

Datashouldbe collected and evaluated from all program graduates to include salary, employment location, and employment in the field. The University is implementing an alumnisur vey (by program) for this purpose in 2012.
