

DEFINITION OF TERMS IN THE GRADUATE PROGRAM ASSESSMENT PROCESS

- A. Program Mission:** How the program intends to serve its constituents.
The department, by some means, composes the mission statement of its graduate program. The mission statement articulates the nature and the purpose of the program.
- B. Program Constituents:** Who is to be served by the program.
Primary constituent group is graduate students in the program.
- C. Program Objectives:** The means by which the program ensures delivery of the promised services.
The department, by some means, identifies a set of indicators that can be used to ensure the delivery of its mission.
- D. Educational Student Outcomes:** The information and skills the students need to learn.
The department stipulates what the student will know, believe and be able to do upon completion of the program. Outcomes should be observable and measurable.
- E. Assessment of Program Objectives:** Assessment is the process of gathering, analyzing and interpreting evidence about the effectiveness of the program. The department establishes the tools by which to measure and determine if program objectives are being met.
- F. Assessment of Educational Student Outcomes:** Assessment is the process of gathering, analyzing and interpreting evidence about the effectiveness of the program. The department establishes the tools by which to measure and determine if educational student outcomes are being met.
- G. Feedback Loop:** The process by which faculty evaluate the evidence collected to make reasoned changes in the program whenever necessary to enhance or improve the program. The department establishes a procedure for faculty to evaluate the evidence collected each year. This evidence is used to make decisions about program changes and ensure continuous improvement.
- H. Annual Report:** An Assessment Report produced annually that indicates:
1. results from data collection during the academic year (based on assessment plan)
 2. record of dates the Graduate Assessment Committee met to consider the assessment results
 3. summary of the decisions made at the meetings by the faculty
 4. summary of how assessment data was used to improve the program
 5. the assessment plan for the next academic year
 6. progress on items in the Memorandum of Understanding*
- I. Assessment Plan:** This document specifies the:
- Program mission
 - Program constituents
 - Program objectives
 - Educational student outcomes
 - Program assessment activities (when and how the various program objectives will be measured)

GRADUATE PROGRAM ASSESSMENT PLAN, 2006-2007
WICHITA STATE UNIVERSITY

Program Name: PhD in Aerospace Engineering **Date:** October, 2006

School/College: Engineering **Campus Box:** 44

A. Mission Statement

To prepare students for careers in Aerospace Engineering and related fields, research organizations, and universities.

B. Constituents

The graduate students in the Department of Aerospace Engineering are the program constituents.

C. Program Objectives

- a. To ensure the admission of qualified students into the program each year.
- b. To provide qualified faculty for the program.
- c. To provide appropriate laboratories for the program.
- d. To provide an appropriate variety of graduate courses for the program.
- e. To enroll a sufficient number of students to support the courses offerings.
- f. To achieve an acceptable placement rate within one year of graduation either in jobs or in graduate programs for further study.
- g. To ensure graduates are satisfied with the program (three years after graduation). *Resource?*

D. Educational Student Outcomes

- a. To ensure continued quality of student performance during the program.
- b. To show competency in the their areas of specialty.
- c. To be able to self-educate.

E. Assessment of Program Objectareas of specialty.

Results:

c.

Each student is required to have a final oral examination on his/her dissertation upon completion of his/her work, and to pass the exam administered by the student advisory committee. The performance of students will also be assessed by their awards, journal articles, research papers and reports, and conference presentations and proceedings authored by the student.

Results:

b. Educational Outcome (b) – Competency in areas of specialty:

- The students must pass five core courses in each area of specialty, identified by the faculty in that area.
- Students must pass at least two graduate level course in mathematics or statistics.

Results:

c. Educational Outcome (c) – Self Education:

- More than 85% of the graduates must have demonstrated the ability for independent research.

Results:

G. Feedback into the Program

Process:

The graduate coordinator is responsible for collection of the data pertaining to the assessment report. The department has a Graduate Committee composed of the two graduate coordinators and a third member appointed by the department chairperson. This committee meets annually to review the results of the assessment and to provide feedback into the program. The same committee also reviews the program mission, objectives, outcomes, and the assessment process periodically and in consultation with other faculty members.

Results:

H. Annual Report:

The Assessment Report documents:

- Results from data collection during the academic year
- Dates when faculty met to consider the results
- Summary of decisions made at the meeting of the faculty
- When issues identified at the meeting will be considered again
