Bacterial Identa 1 BDC 9 Tc 9 Tc ca 9197 Tn

Created: 9/13/2024 Updated: 9/13/2024

Performance

Days Performed

Daily; Monday - Sunday

Report Available (TAT) – (Once received at MDL)

2 - 4 days

Specimen Retention Time

7 days

Method Description

Identification methods may include any of the following: conventional biochemical testing, matrix-assisted laser desorption/ionization time-of-flight (MALDI-TOF) mass spectrometry, and commercial identification panels. Genus and species are reported on aerobic bacterial isolates whenever possible.
