IMPORTANT: Price Comparison Mindset

Before comparing our prices with competitors, please remember that these are the finished products i.e 'with designs' and **cannot be compared with blank products**. All the products in

TheBreedBusiness catalogue are created using 'licensed images' and a professional team of graphic designers. None of our

competitor offers products with designs that are 'non aliexpress' and 100% pet targeted covering majority popular pet breeds. TheBreedBusiness adds 15-20 products each day to our database and you can expect 300+ fresh designs each month, automatically added to your Platinum stores. We pay close to 5 figure each month in image royalty alone and make sure our prices are very reasonable in comparison to our cost.
